

Matsudo Kokusai High School

Matsukoku SDGs!!

Volunteer work

- Workshop
at Matsuhidai Elementary School

We visited and taught English there with the game, called "who are you?"

- Donation for a sufferer from a flood

We donated money to people living in Western Japan, who suffered from a storm and a flood.

- Others

We sent some wooden musical instruments, called recorder to a foreign country. When we were elementary school students or junior high school students, we used to use them.

Interaction with the people living abroad

- School trip to Taiwan

We visited some historical structures and old temples.

We visited Taipei Municipal Zhonglun High School, which is our sister school. We discussed each culture, fashion, school life and so on...

- Studying abroad

St Brigid's College

We went to USA and Australia. We stayed at our host-family's houses and went to the local school with our buddies.

International Understanding

We take the international understanding seminars several times a year.

We listen to various people such as a university Student who major in international liberal studies or a Japanese woman who established a school in slums.

We can know more about the world through these seminars.

The first step to be an internationally-minded person

We learn Chinese, Korean and French. Some Students have participated in the contests.

We learn about Japanese culture to know about Japanese sprits.
* Tea-ceremony
* Kabuki

First grade students participated in the English camp held at British-Hills in Fukushima.
